Nature must be felt - either outdoors in the open or you bring the natural feeling inside. The non-slip, nature-inspired structure of the basic fabric supports the graphic, straight-line pattern.

London

Your gaze wanders through the room and you enjoy your dark red, velvety Baroque wallpaper, which really sets your minibar in scene. There is only one thing left to say - Cheers!

The baroque pattern with ornaments captivates both in terms of pattern and color, which ranges from more dignified beige to strong red or impressive black. Striking glitter effects make these wallpapers the absolute eye-catcher.

The counterpart to the baroque English wallpaper is the curtain with a fine restrained ornamental pattern. These create a subtle play of light on the fabric. The soft velour quality is particularly important here and brings the royal character into one's own home.
