

Indes Fuggerhaus Press Release

Marienheide, Fall 2015

Welcome Home – the nicest place on earth

A large part of our life is taking place in our home. This is where memories are being born, happy sociable moments are enjoyed and family and friends given a warm welcome. It takes a variety of elements to turn an ordinary house into a comfortable home. The Fuggerhaus collection "Welcome Home", with fabrics as light as a feather, will help with the finishing touches of the window decorations and makes the transformation from a house into a home sweet home possible.

Come on in and feel good is the motto – at first glance the living room welcomes you as one of the most comfortable rooms of the house. A fascinating book in the armchair, relaxing on the sofa or an enjoyable games night with friends this is what makes the lounge so special.

The fabrics at the window appear to be an experiment and stress an individual atmosphere in the home. "Weave" a jacquard woven decoration fabric with fading design contours contributes ideally to a modern living. The contemporary interpretation of classical elements in "Valentino" brings a fascinating character to the living room. "Glamour" introduces itself as a most extravagant highlight at the window. A very light semi-transparent base fabric finished with a metal print – pure luxury and elegance. Those fabrics can tell tales and create a balance between the contemporary living and the handed down experience and tradition.

The kitchen is not just the place for cooking and eating – it is the centrepiece of the house where everybody meets. For a modern ambiance in the kitchen the choice is "Flair". A devoré with a sophisticated finish. On the net-structure the surface is finished with an elegant glimmer. Quite the opposite is "Script" with its abstract calligraphy design. It expresses character in the room and makes a statement for modern living. For a more cosy approach, "Antica" a multicolour

design with disintegrating stripes which create a comfortable and homely atmosphere – the kitchen as a comfort zone.

If outdoors or indoors - everybody enjoys relaxing moments in the green of nature. Fuggerhaus glade n's the heart of nature lovers, with light fabrics in delicate colours which bring the garden into the home. The blurry wiping technique of the print "Amanda" reminds in an artistic way of an ancient wall telling many stories. The charm of the metropolis and the magic of nature are merging in the devoré design "Avery". Large blossoms with colourful dégradé contours are creating a stunning attraction at the window. "Elina" presents a casual look - the linen fibres and the fascinating weaving structure show the natural character of the fabric. With a good book and a refreshing drink this self made oasis welcomes you to stay.

Pleasant comfort is spreading in the bedroom, a place of tranquility and relaxation. A cosy atmosphere is created by the dimout "Olymp", which dims down the room in an elegant and decorative way. Calmness is expressed by the net curtain "Kate". This uni coloured net is far from being plain as its unique net structure and luxurious gleam attract attention. "Romantic Deluxe" would be a suitable motto for the embroidery "Jolie". The vintage style is a reminessance to times gone by. The embroidery design is composed as a picture with a finished border at the bottom. Its soft and elegant drape will be enjoyed by the romantic type. Lots of love has been put into the details of "Feather", a lightweight window decoration. The play of calligraphy and delicate feathers on a very soft base fabric meets ideally the idea of a lovingly decorated room.
