### **Canapé – Luxury for furniture**

A piece of furniture ideally is nice to look at and practical in its use, but to line up to be the highlight of an interior, this little extra is needed. A room transforms into a place of character and comfort. The Canapé collection with its luxurious fabrics helps to put your upholstered furniture into the right light.

A choice of three designs in elegant colorations is available to cover any piece of furniture with splendid charm. „Gosh“ a traditional and opulent design manufactured as a luxurious Velours de Gênes with large ornaments – a real statement. An elegant used look has been created on design „Gloria“. With different types of yarns the velvet has a sparkling look. Also „Gilda“ a self patterned ornament design is based on high-low structures and the brilliance of the yarns. Those luxurious upholsteries will revalue your favourite pieces and put them in the spotlight.
